## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9, drawn to the knitted screen, classified in class 442, subclass 1+.
  - II. Claims 10-13, drawn to the method of making the knitted screen, classified in class 427 in various subclasses.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the individual fibers that make up the web could be precoated and then knitted into the desired fabric.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Mr. Richard Paikoff on 08/22/03 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-9. Claims 10-13 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention. Applicant has the right to file a divisional application for the cancelled method claims.

## EXAMINER'S AMENDMENT

Art Unit: 1771

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: please cancel claims 10-13.

***Allowable Subject Matter***

6. Claims 1-9 are allowed.

7. The following is an examiner's statement of reasons for allowance: there was no prior art found that teaches or suggests a polymer coated knitted screen cloth forming a web which further includes a lattice and a binding thread.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
